

## Recommendation

Dmitry Biurganovsky has been working with Riki Group for over 15 years. During this time, he created about a thousand original musical arrangements for a huge number of animated films. Among them are such landmark projects as KikoRiki, BabyRiki, Tina & Tony, and others. He has also worked on feature films such as KikoRiki: The Beginning, Kikoriki: Legend of the Golden Dragon, Kikoriki: Deja Vu and many others.

All these projects have been successfully shown in different countries for many years and have been translated into dozens of languages.

Dmitry demonstrates the highest professional skills in various musical genres and cinematic styles, from grotesque miniatures to grandiose symphonic compositions, from popular hits to underground tracks. Dmitry has an impeccable taste in music, high professionalism and what is not less important – outstanding human sensitivity. We are very happy to work with such a unique musician as Dmitry Byrganovsky.
